

JANUARY

2021

1. Covid-19: how is coronavirus affecting the healthcare systems worldwide
2. Top 10 benefits of technology for healthcare during Covid-19
3. Covid-19 and digital transformation
4. Frontline workers in the fight against Covid-19
5. Cardiovascular Diseases: cutting-edge technology
6. COPD
7. Cancer Immunotherapy
8. Obesity and weight management
9. Serology testing

A

1. Digital technology transformation of outpatient services
2. Medical tourism after Covid-19
3. Electronic medical records
4. Stroke
5. Hospitals accreditation
6. Infectious control
7. Recent Advances in Radiation Oncology
8. Sleep health
9. Endometriosis and period problems
10. Covid-19 vaccines and immunization

FEBRUARY

A

1. Telehealth and Covid-19
2. IT solutions and services in hospitals
3. Hospital robotics
4. Comprehensive examination package and executive health program in hospitals
5. Stroke and disability
6. Obesity and related disease: diabetes-heart disease...
7. Obesity Advanced treatments and Weight management
8. Cardiac Catheterization
9. Ultrasonography
10. Women's health in review

MARCH

1. IOT: next-generation healthcare services
2. Pharmaceutical supply chain-Covid-19: automation
3. Advances in medical robotics and automation for surgery and rehabilitation
4. Rehabilitation and physical therapy after stroke
5. Healthy Aging
6. Asthma
7. Operating room: state-of-the-art equipment
8. Type 1 and type 2 diabetes
9. Emerging infectious diseases; HIV infections, SARS, Lyme disease E. coli, hantavirus, dengue fever, West Nile virus, and the Zika virus
10. Alzheimer's Disease
11. Autism Spectrum Disorder

APRIL

MAY

1. Head and neck cancers
2. Artificial Intelligence and healthcare
3. Insulin hormone and diabetes
4. Smart hospitals: the digital future of global health
5. Using AI To Detect Covid-19 in X-Rays
6. Single-use medical devices
7. Metabolic diseases
8. Recent Advances in MRI Technology
9. Cellular therapy
10. Bone Marrow Transplantation

1. Hardware and software development in hospitals
2. Pharmaceutical industry
3. Medical equipment
4. Wearable devices
5. Bariatric surgeries
6. Deep Vein Thrombosis
7. Endoscopy
8. Rheumatology
9. Benign and malignant liver, pancreas and biliary system tumors

JUNE

1. Uses of robotics in healthcare
2. Spine care, spine surgery achievements
3. Cervical Cancer
4. Hypoglycemia, hyperglycemia
5. Palliative Care
6. Blood Pressure
7. Mental health and depression
8. Types of headaches and treatments
9. Hepatitis
10. Health risks of smoking Tobacco

1. Smart Beds, smart rooms
2. Plastic and Reconstructive Surgery
3. Polycystic Ovary Syndrome
4. Mental Health
5. F.A.S.T and its role in early detection for stroke
6. Chemotherapy
7. Epilepsy
8. Pediatric Surgery
9. Gallbladder and Biliary Tract Tumors
10. Diabetes and foot health

1. Home health care services
2. Pain Management
3. Anxiety
4. Dementia
5. Parkinson's disease and stroke
6. Dermatology
7. Interventional Radiology
8. Liver Transplant
9. Diabetes and kidney disease
10. Wound care management

1. Robot-assisted surgeries
2. Breast Cancer
3. Cancer new treatments: targeted therapy and immune therapy
4. Electroencephalography-EEG
5. Electromyography-EMG
6. Prostate cancer
7. Herpes symptoms causes and treatments
8. Human organ donation and Transplantation

OCTOBER

NOVEMBER

1. Role of AI in medical imaging
2. Antibiotic Resistance
3. Viruses and Bacteria
4. Stroke
5. Lung cancer
6. Diabetes and cardiovascular diseases
7. Vaccinations
8. Neonatal Intensive Care Unit
9. Allergies causes symptoms and treatments
10. Autoimmune diseases who get them and why?

1. Smart beds, smart rooms
2. Diagnostic Imaging
3. CT Scan
4. Infertility-IVF
5. Pediatric Cardiology
6. Haemophilia
7. Growth hormone
8. living with a chronic disease
9. Benign and malignant brain tumors
10. Gallbladder Stones

DECEMBER
